

THE LSU CENTER FOR FRENCH AND FRANCOPHONE STUDIES PRESENTS:

THIRD ANNUAL CARIBBEAN DIGITAL HUMANITIES LECTURE

Linguistic Challenges and AI Innovations for Haitian Creole:

Overcoming Language Barriers for Healthcare

DR. LUDOVIC MOMPELAT, UNIVERSITY OF MIAMI

This talk explores the challenges of developing an AI-enabled translation and interpretation app tailored to the Haitian Creole-speaking population in Miami, including issues of linguistic variation, multilingual code-switching, and domain-specific vocabulary for medical settings. Join us to learn how cutting-edge natural language processing (NLP) technology can promote equity for Creole-language communities across the US.

Virtual Lecture

Friday, February 21st, 2025

11 a.m. -12 p.m. CST | 12pm-1 p.m. EST

Pre-registration required to attend.
